Dear Sir

We recently used your firm to move ours and our sons furniture first into storage and then to move us to Cornwall on 22/07/2005. I would like to congratulate you on having the most patient and hard working staff. We had Mervyn and Gerwyn on both days and they are a credit to your firm. They both worked their socks off and never moaned once always happy and joking, by the end of the move they were like part of our family. I would definitely recommend your company to others in the future although we now live down here we are in touch back home.

Please thank the boys for us again and tell them they are most welcome if they ever come here on holidays. Not forgetting the pleasant manner the lady in the office she also was very helpful

Thank you again

Elaine Graham and Barric Martin
